Total number of deaths from all causes, 11.

*Report from Matanzas—Enteric fever—Epidemic of scarlet fever extinct.*

Acting Assistant Surgeon Nuñez reports, June 6, as follows:

During the week ended June 4, 1904, bills of health were issued to 6 vessels leaving for ports in the United States in good sanitary condition.

The only infectious disease reported in this city during the week was one case of enteric fever. As no new cases of scarlet fever have occurred for the last two weeks, the epidemic may safely be considered at an end.

*Mortuary statistics, May 20 to 31, 1904.*

Cause of death.	Number of deaths.	Bertillon number.
